

CONTOUR | thermostatic shower system for exposed installation

Finish: chrome (CR)

OMNIRES CONTOUR collection intrigues with its extravagant form and decorative details. An austere, architectural design with a diamond milling marvels with the sophisticated combination of textures and perfect workmanship.

Chrome is a versatile finishing in a silvery colour, with the perfectly even and lustrous surface.

Design: Paulina Shacalis, OMNIRES Studio
Awards: Red Dot Design Award, Must Have
Distinctions: Dobry Wzór

Technologies

The mixer is equipped with the highest quality thermostatic cartridge incorporating a 38°C lock. The cartridge protects against sudden temperature changes and guarantees long term product performance.

The EASY CLEAN nozzles allow the user to easily remove any limescale from the shower head and the hand shower by simply wiping their silicone surface.

The mixer's body, the valve and the rosette are all made of high quality A-grade brass.

The shower head is made using the ANTI-SCALE technology. It incorporates a silicone insert that prevents internal water stagnation. Occasional tilting of the shower head, so that any stagnant water could flow out through the nozzles, guarantees long term product performance.

The product is coated using the advanced electroplating technology which guarantees durability, offers good resistance to mechanical damage and facilitates cleaning.

Flow characteristics

- hot water supply: max. 90 °C
- working pressure 1-6 bar

Specification

- thermostatic shower mixer
- brass shower head: $\varnothing 25$ cm, reach from the wall: 44.5 cm
- brass hand shower, 1-function
- stainless steel flexible shower hose, length: 150 cm
- adjustable height, minimum/maximum system height: 85 cm/135 cm
